

10-osios OMNITEL 1000 km lenktynės

Skirtos Lietuvos vardo tūkstantmečio minėjimui

2009 m. liepos 15–18 d. Palanga - Kretinga

You can use you personal computers to view online practice/qualification/race results!

Computer requirements:

1. Windows OS
2. WiFi 802.11g wireless network card

Preparing for work:

1. You must connect to one of „Rezultatai1“ or „Rezultatai2“ wireless networks. There are more wireless networks (as „omnitel“etc.) reachable here, but you **will not see results** if you are connected to them.
2. Be sure that in TCP/IP configuration for wireless card there is „Obtain an IP address automatically“ selected.
3. Connect to <http://192.168.137.137> using your favorite „internet browsing“ application. You will find needed software here.
4. Get file MyLapsMonitor.exe and install application.
5. Start application and you will see results. Be sure to stay connected to one of „Rezultatai“ wireless networks. Results are available only on line.

TV broadcasting signal

1. Requires a TV, TV antenna suitable for indoor (preferably higher), linked to the Race control.
2. The signal operates on 7 metric channel or PAL 876 MHz.
3. Please note that not all TVs can receive broadcasting on metric channel 7.
